Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: There was not an agreement reached between Applicant's representative, Robert Schwartzman and Examiners Weber and Winston because claims 33-44 stands rejected under 35 U.S.C. 102(e) for the reasons set forth in Examiner's final rejection on 02/15/2007. During the interview, Examiners reiterated to Applicant's representative that the quantity and/or mass (i.e. 0.0018mg and about 0.45mg) of a well known pure compound claimed as a composition is not given patentable weight by Examiner because quantity and/or mass is an extrinsic property. Only intrinsic properties of a well known pure compound claimed as a composition (i.e. intrinsic properties such as concentration and color that have to do with the substance of the compound) are given patentable weight by the Examiner.
